PINNACLE STUDIO MovieBox USB

Make Your Home Movies Unforgettable

From your camcorder to your PC

The first part of creating great movies on your PC is capturing your footage, and Pinnacle Studio version 8 makes that easier than ever! Simply hook up your video device (camcorder, VCR, etc) to Pinnacle MovieBox USB and let the Smart Capture feature do the work. Thumbnails are created for each recorded scene – you just have to drag and drop them right onto the edit timeline to begin your work.

- **Smart Start, Smart Stop** - Pinnacle Studio saves time and effort by instantly detecting where each scene starts and stops.
- **More Video, More Fun** - Pinnacle MovieBox USB automatically compresses your video in DVD quality (MPEG2 format) which saves tremendous space on your hard disk, with no compromise in the quality.

MINIMUM SYSTEM REQUIREMENTS:

- Intel Pentium or AMD Athlon, 500MHz or higher (1.0 GHz recommended)
- 128 MB RAM (256MB recommended)
- Windows 98SE, "Millennium", 2000 or XP (Windows XP recommended)

- MPEG Layer 2 audio

From imagination to production

Pinnacle Studio version 8 delivers everything you need to turn your raw footage into fantastic feature films. 3D scene transitions, titles, background music, video effects are just a few of the amazing ways that you can bring your home movies to life.

- **More Power, More Creativity** - Pinnacle Studio version 8 provides amazing video effects such as Slow and Fast Motion, Colour Correction, Emboss and Posterize allow you to add a professional touch to your productions.
- **No Music? No Problem!** - Only Pinnacle Studio includes SmartSound, a background music generator that instantly creates a soundtrack perfectly matched to the movie. Pinnacle Studio also includes a professional sound effects library and audio editing tools to make sure your movie sounds as good as it looks.

From Your PC to Your TV and beyond

Once you have completed your masterpiece, you can directly record it back out to VHS, DV or analogue camcorder tapes via your Pinnacle MovieBox DV, burn it to CDs* or DVDs* that play on your set top DVD player, play it back on your PC or on your TV, email it to family or friends, or post it on the web.

- **More Intelligence, More Efficiency** - Pinnacle Studio version 8 builds the CD and DVD creations right into the timeline, so you can design your menus while you're editing your movie.
- **More Effects, More Impact** - Only Pinnacle Studio lets you add moving videos and animations to menu backgrounds and buttons for incredible professional results.
- **More Menus, More Possibilities** - Pinnacle Studio allows you to add menus within menus for incredible interactive CDs and DVDs - just like Hollywood movies!

*CD or DVD burner required

- **Easy and fast installation:** Connect your camcorder to Pinnacle MovieBox USB, as simply as you would connect it to your TV set; then plug Pinnacle MovieBox USB to the USB port that comes with most laptop & desktop PCs. No need to open the PC!
- **Universal Standard:** Pinnacle MovieBox USB delivers high quality on a standard USB port, and even higher quality video capture on the latest Hi-Speed USB 2.0 port.
- **Design by F A Porsche:** Pinnacle MovieBox USB has been designed to be both elegant and ergonomic.
