What's New in Pinnacle Studio 20 Ultimate

New! Motion Tracking

Easily add moving text or graphics to an object to put the focus on certain elements in your video, or obscure them by applying a mosaic blur.

New! Stop Motion Animation

Plug in your camera, control your settings and capture your animation frame by frame to create amazing animations and fast-motion effects.

New! Easy Track Transparency

Easy Track Transparency lets you adjust the opacity of tracks, so you can see them at the same time in an overlay effect.

New! 360° video editing

Edit 360° videos, add titles or set a path and convert them into standard video.

New! NewBlue creative effects

Explore endless creative possibilities with over 900 presets and more than 75 plugins from industry leader NewBlue, including new Video Essentials III.

New Templates! Pinnacle MyDVD

Create professional-looking disc projects with menus, chapters and music using 100+ templates in Pinnacle MyDVD.

Enhanced! Multi-Camera Editor

Combine footage from up to 6 cameras, sync clips with audio and easily switch between camera angles.

Optimized for the latest formats

Now with support for HEVC (H.265), offering a higher compression rate, better quality and a smaller file size.
